

■ Asiya Khan

Computer Science Student | BSCS 6th Semester | COMSATS University Islamabad, Attock
+923299575879 | asiayarkhan15@gmail.com | Attock, Pakistan

PROFILE

Motivated Computer Science student at COMSATS University Islamabad, Attock Campus with hands-on experience in web development, mobile app development, machine learning, networking, and object-oriented systems. Actively seeking an internship opportunity to apply and expand skills in a professional environment.

EDUCATION

BS Computer Science

COMSATS University Islamabad, Attock Campus | 2023 – 2027 | Currently in 6th Semester

Intermediate – F.Sc

Government Degree College for Girls, Attock City

TECHNICAL SKILLS

Programming Languages: Python, Java, C/C++, JavaScript

Web Development: HTML, CSS, JavaScript, Bootstrap

Mobile Development: React Native / Expo (In Progress)

Database: MySQL, SQL, MongoDB, Database Design, Mongoose ODM

Tools & Platforms: GitHub, VS Code, Microsoft Office, Git, Expo

Backend: Node.js, Express, REST APIs, JWT Authentication

ACADEMIC PROJECTS

Pet Care Management Application

Tech: Android, Mobile Development

- Fully developed mobile app for managing cat care across categories: adult, kitten, pregnant, and nursing cats
- Includes feeding guidance, appointment booking for grooming, feeding, and vaccination
- Role-based admin panel for managing pet owners and appointments

Study Planner Application

Tech: MongoDB, Full-Stack

- Full-stack study planner with persistent MongoDB backend
- Features: add subjects, notes, quizzes, and exam preparation plans
- Built-in countdown study timer with all data stored in MongoDB

Starbucks Website Clone

Tech: HTML, CSS, JavaScript

- Fully functional replica of the Starbucks website including home page, menu, and order placement
- Includes payment flow closely mirroring the real Starbucks UI and user experience

Library Management System

Tech: Object-Oriented Programming (OOP)

- Desktop application managing book inventory, member records, and borrowing/return tracking
- Built using clean OOP principles with modular class design

Hospital Management System

Tech: HTML, CSS, OOP

- Web-based system covering patient registration, appointment scheduling, and record management
- Applied OOP syntax and functionality throughout the application

Uber Navigation System

Tech: Cisco Packet Tracer, Networking

- Network simulation of a ride-hailing routing system using Cisco Packet Tracer
- Implements shortest-route detection using routing protocols and network topology

Plant Disease Detection System

Tech: Machine Learning, Python

- ML image classification model trained on a plant disease dataset
- Users upload a plant image; system predicts whether the plant is healthy or diseased

LANGUAGES

Urdu — Native | English — Proficient | Pashto — Native

AVAILABILITY

Available for internships, part-time roles, and full-time graduate positions upon degree completion.
